

# Re-Sharp / Re-Use Service

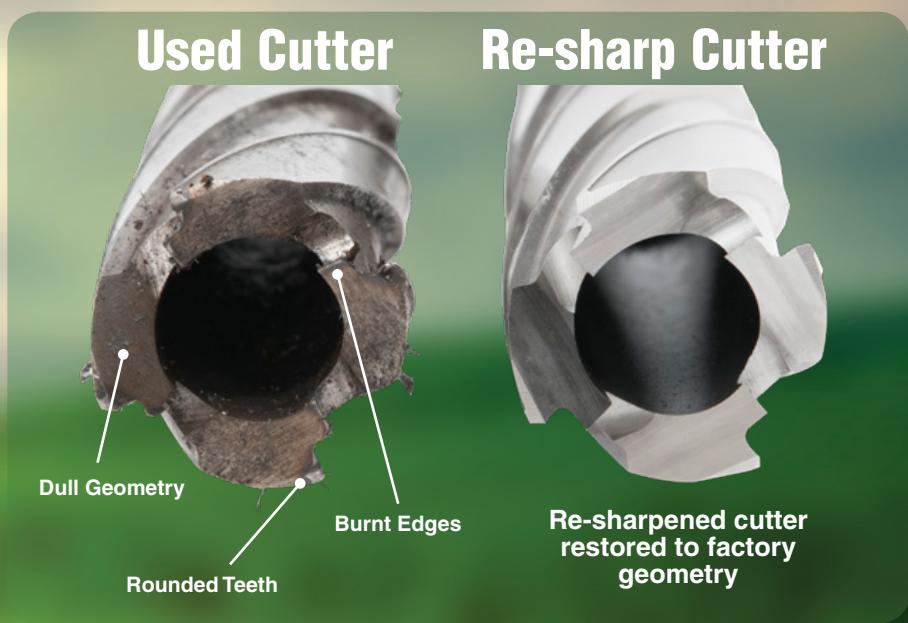

By using Hougen annular cutters, you save time and money. But taking advantage of Hougen's "Re-Sharp / Re-Use" Service will save you even more money, plus it's better for the environment. Resharpening a cutter is much less expensive than buying a new cutter and it cuts like new.

"For a Greener Tomorrow"

## Did You Know?

A typical Hougen "12,000-Series" can be resharpened up to 12 times before the cutter needs to be recycled!

## How it Works...

Just send in your used Hougen "12,000-Series" or RotaLoc Plus™ cutters to a Hougen "Re-Sharp / Re-Use" Service Center. Once we receive your tools, we will resharpen them and ship them back to the Hougen distributor of your choice for you to pick up & pay.
